IMPORTANCE OF SPEED.

A GREAT FACTOR IN EVERY DAY LIFE.

In these days of rapid progress, one of the most important factors in business and science, in transportation, in sports, and, in fact, atmost everything, is speed. I have used a number of bottles of "KODOL," and have found it to be a very effective and, indeed, very powerful remedy for stomach ailments.

I do not hesitate to recommend it to all persons who have weak digestive organs.

No man is stronger than his stomach. A weak stomach weakens the man because it cannot transform the food into nourishment. A weak stomach cannot digest enough food to keep up the strength. Kodol Dyspepsia Cure makes the man strong by making the stomach well.

Nine of every ten persons who are sick, pale or weak need a pure, clean, sweet, healthy stomach. Kodol cures indigestion, dyspepsia, sour stornach, tired stomach, weak stomach, windy stomach, puffed stomach, nervous stomach and Catarrh of the Stomach, by digesting what you eat, while the inflamed membranes of the stomach are allowed to rest and heal. It restores health to the stomach and strength to the body by enabling the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. Kodol gives health to the sick and strength to the weak.

STRONG MEN ARE SUCCESSFUL MEN

DR. TERRILL

Restores Men to Unimpaired Vitality, With Strong Body, Strong Nerves, Strong Will.

Few men are really as strong and vigorous as they ought to be-Hand work or worry or the hastle of modern life is overtaxing the resources of many. Past indiscretions or excesses and other priwite diseases have undermined the constitutions of still others--few are the men they ought to be. This is why the wealth of the world is concentrated in the hands of the few. Except in the cases of interited wealth, the wealthy men, the successful men, are healthy men-men with strong body, strong nerves, strong will, strong mind. They are men who have carefully observed the laws of nature and guarded their strength and health.

What Kind Are You? Are you induiged in indiscretions, excesses and dissipations which have caused a weakness of mind and body, loss of memory or a teeling of incapacity? Have you lost energy and vigor as a result of overwork o worry? Are you nervous and fired out, g'ad when work is over to be alone to rest? Are you naturally weak-an inheritance from weakly ancestors?
